

Sara Garbarino

Curriculum Vitae

Research Interests

- Theoretical mathematical modelling, inverse problems, graph theory, regularization theory, compartmental analysis, image processing
- Methodical computational modelling, statistical methods, convex optimization
- Applications mechanistic and data-driven model for the progression of neurological diseases, biomedical imaging and computing: data from PET and micro-PET, X-ray CT and MRI

Position

- Apr 2018 – to date **Research Fellow of the Excellence Programme of Universite de la Cote Azure**, EPIONE TEAM-PROJECT, *INRIA Sophie Antipolis, UCA*, with the project "A data-driven model of mechanistic brain Atrophy Propagation in Dementia (AtroProDem)".

Research Experience

- Mar 2016 – Mar 2018 **Research associate**, CMIC GROUP, *Computer Science Department, University College London*, H2020 European Projects "European Progression Of Neurodegenerative Disease initiative" (EuroPOND), supervisor: Prof. Daniel Alexander.
- Jan 2015 – Feb 2016 **Postdoctoral research fellow**, MIDA GROUP *Mathematics Department, University of Genoa*, supervisor: Prof. Michele Piana, Computational and inversion methods with applications to biomedical data.

Research Groups Membership

- 2018 – to date **Member of "Epione team-project"**, *INRIA Sophia Antipolis, UCA*, www.inria.fr/epione.
- 2016 – 2018 **Member of "Centre for Medical Image Computing (CMIC) group"**, *Computer Science Department, University College London (UCL)*, www.ucl.ac.uk/cmhc.
- 2017 – 2018 **Post-doc representative at the "Athena Swan for Gold Award Committee" for promotion of gender equality and women in science**, *Computer Science Department, University College London (UCL)*.
- 2012 – 2016 **Member of "Methods for Image and Data Analysis (MIDA) group"**, *Mathematics Department, University of Genoa*, www.mida.dima.unige.it.
- 2012 – to date **Research associate of GNCS – INdAM**.
- 2012 – 2016 **Research associate of CNR – SPIN**.

work: room 207, second floor, Fermat Building – INRIA Sophia Antipolis

☎ (0039) 3387745086 • ✉ sara.garbarino@inria.fr

Education

- 2012 – 2014 **PhD in Mathematics and Applications**, *University of Genoa*.
- 2009 – 2011 **MSc in Applied Mathematics**, *University of Genoa*, final grade: 110/100 magna cum laude.
- 2006 – 2009 **BSc in Pure Mathematics**, *University of Genoa*, final grade: 108/110.
- 2001 – 2006 **Secondary education (maturità scientifica)**, *Gymnasium L. Lanfranchi*, final grade: 100/100.

PhD Thesis

- Title *Compartmental analysis in nuclear medicine: an inverse problem approach*
- Supervisor Prof. Michele Piana
- Reviewers Prof. Michele Piana and Dr. Stephen Nekolla
- Sub./Defense Dec 2014 / 22.04.2015
- Permalink http://fermat.dima.unige.it/~garbarin/images/PhDthesis_garbarino.pdf

Projects and Grants

PI

- 2018 **LYSM International Associated Laboratory grant for conferences**, 750 Euro.
- 2018 **UCA Excellence Project - Individual Support for Young Researchers**, 103,222.64 Euro.
- 2018 **EPSRC platform grant - CMIC pump priming award**, 9,150 GBP.
- 2015 **GNCS (National Group for Scientific Computation) Young Researcher Grant**, 950 Euro.
- 2013 **GNCS Young Researcher Grant**, 700 Euro.
- 2012 **GNCS Young Researcher Grant**, 900 Euro.
- 2012–2014 **PhD-Scholarship**, *Italian Ministry of Education, University and Research*.

Participation

- 2016–2018 **Co-Scientific Manager**, for the H2020 European Projects “European Progression Of Neurodegenerative Disease initiative” (EuroPOND), PI: Prof. Daniel Alexander.
- 2015–2016 **Participation**, in the “Software for LIDAR data analysis project” funded by ALA S.r.l (Advanced Lidar Applications, Napoli) (PI: Prof. Michele Piana).

Software

- 2018 **Mechanistic profiles of neurodegenerative diseases**, *Matlab and python2.7 software implementing techniques to estimate the combination of biological mechanisms underlying neurodegeneration in a variety of condition, such as Alzheimer's Disease, Multiple Sclerosis, or ageing from Magnetic Resonance Imaging data:* <https://github.com/sgarbarino/mechanistic-profiles>.

- 2015 **Inversion of LIDAR data**, *Matlab and C# software developed for Advanced Lidar Applications (ALA) Srl, implementing inversion techniques for reconstruction of aerosol particles properties from LIDAR data.*
- 2012 **Denoising of MRI images**, *Matlab software developed for Paramed Srl, implementing post-processing denoising of Magnetic Resonance images.*

Publications

My research is primarily concerned with applications of mathematical modelling and inverse problem in a biological framework. During my PhD, I developed compartmental models to study the physiological and pathological behaviour of glucose metabolism in tissue, using micro-PET data. I have dealt with modelling the hepatic and the renal metabolism, under normal or cancerous conditions. I have studied the impact of anticancer drugs by measuring the effects on the parameters estimated by my models. During my first PostDoc, I have been involved into a collaborative project between the MIDA group, ALA srl and the Beijing Meteorologic Centre to develop inversion techniques for reconstructing aerosol profile from atmospheric LIDAR data. Nowadays my major interest is in the application of inverse problem and graph theory techniques for modelling neurodegenerative diseases development and progression. In particular I am interested in the construction of Network Propagation Models, whose attempt is to explain disease progression in terms of pathogens propagation through anatomical or functional networks in the brain, which thus induce measurement changes sequentially along the nodes of a network. The pattern of propagation depends on, and can thus reveal, mechanisms of propagation. In the following my publications (10 published on journals/5 published conference proceedings /1 in press/1 under review).

Under review

- Nov 2018 **S. Garbarino, M. Lorenzi, N. Oxtoby, E. Vinke, R. Marinescu, A. Eshaghi, (Editorial decision to send to review) M. Ikram, W. Niessen, O. Ciccarelli, F. Barkhof, J. Schott, M. Vernooij, D. Alexander, and the Alzheimer's Disease Neuroimaging Initiative, Data-driven profiles of neurodegenerative mechanisms from neuro-imaging data sets, Nature Neuroscience.**

In press

- Jul 2017 **S. Garbarino and G. Caviglia, Multivariate Regularized Newton method for tumor hypoxia in kinetic framework, Communications in Applied and Industrial Mathematics.** (Accepted)

Published

- 2018 **F. Delbary and S. Garbarino ***, *Compartmental analysis of dynamic nuclear medicine data: regularization procedure and application to physiology, Inverse Problems in Science and Engineering.*
DOI: 10.1080/17415977.2018.1512603

- 2018 **M. Scussolini, S. Garbarino, M. Piana, G. Sambuceti and G. Caviglia**, *Reference Tissue Models for FDG-PET Data: Identifiability and Solvability*, IEEE Trans. Rad. Plasma Med. Sciences, 1-10.
DOI: 10.1109/TRPMS.2018.2801029
- 2017 **M. Scussolini, S. Garbarino, G. Sambuceti, G. Caviglia and M. Piana**, *A physiology-based parametric imaging method for FDG-PET data*, Inverse Problems 33, 125010.
DOI: 10.1088/1361-6420/aa9544
- 2017 **N. Oxtoby, S. Garbarino, N. Firth, J. Warren, M. Schott, D. Alexander and the Alzheimer's Disease Neuroimaging initiative**, *Data driven model of structural brain connectivity changes in sporadic Alzheimer's Disease*, Frontiers in Neurology 8, 580.
DOI: 10.3389/fneur.2017.00580
- 2017 **G. Denevi, S. Garbarino and A. Sorrentino**, *Iterative algorithms for a non-linear inverse problem in atmospheric lidar*, Inverse Problems 33, 085010.
10.1088/1361-6420/aa7904
- 2016 **F. Delbary, S. Garbarino, V. Vivaldi ***, *Compartmental analysis of dynamic nuclear medicine data: models and identifiability*, Inverse Problems 32, 125010.
DOI: 10.1088/0266-5611/32/12/125010
- 2016 **S. Garbarino, A. Sorrentino, A. M. Massone, A. Sannino, A. Boselli, X. Wuang, N. Spinelli and M. Piana**, *Expectation Maximization and the retrieval of the atmospheric extinction coefficients by inversion of Raman LIDAR data*, Optics Express, 24(19), 21497–21511.
- 2015 **S. Garbarino, V. Vivaldi, F. Delbary, G. Caviglia, M. Piana, C. Marini, S. Capitanio, I. Calamia, A. Buschiazzi and G. Sambuceti**, *A new compartmental method for the analysis of liver FDG kinetics*, EJNMMI Res. 2015, 5–35.
DOI: 10.1186/s13550-015-0107-1
- 2014 **S. Garbarino, G. Caviglia, G. Sambuceti, F. Benvenuto and M. Piana**, *A novel description of FDG excretion in the renal system: application to metformin-treated models*, Phys. Med. Biol. 59, 2469–2484.
DOI: 10.1088/0031-9155/59/10/2469
- 2013 **S. Garbarino, G. Caviglia, M. Brignone, M. Massollo, G. Sambuceti and M. Piana**, *Estimate of FDG excretion by means of compartmental analysis and Ant Colony Optimization of nuclear medicine data*, Comput. Math. Method M. 2013, 793142.
DOI: 10.1155/2013/793142

* the authors are listed in alphabetical order.

Conference proceeding

- 2018 **S. Garbarino, M. Lorenzi, N. Oxtoby, E. Vinke, R. Marinescu, A. Eshaghi, M. Arfan Ikram, W. Niessen, O. Ciccarelli, F. Barkhof, M. Vernooij, D. Alexander**, *Mechanistic profiles of neurodegenerative: a study in Alzheimer's disease, healthy ageing and primary progressive multiple sclerosis*, Alzheimer's and Dementia 14(7), P1280-P1281.

Marini**, *Effect of Metformin on Cancer Glucose Metabolism: Correlation Between FDG Escape and Glucose-6-Phosphatase Activity in the Endoplasmatic Reticulum*, *Eur. J Nucl. Med. Mol. Imag.* 42, S454-S454.
- 2014 **F. Bongioanni, F. Fiz, R. Piva, S. Garbarino, G. Bottoni, M. Riondato, C. Campi, F. Frassoni, A. Bacigalupo, C. Marini, M. Piana and G. Sambuceti**, *Compact bone erosion and bone marrow metabolic stunning in multiple myeloma treated by transplantation of autologous hematopoietic stem cells*, *Eur. J Nucl. Med. Mol. Imag.* 41, S183-S184.

Workshop organisation

- Feb 19, 2018 **POND2018**, *2nd International Workshop on Progression of Neurodegenerative Diseases*, Campus Biotech, Geneva.

Invited Seminars

- Jul 25, 2017 **Asclepios Research team-project, INRIA Sophia Antipolis**, *Mechanistic models of atrophy progression*, INRIA Sophia Antipolis.
- Feb 10, 2017 **INdAM Mathtech Workshop: A place where mathematics, clinics, and industry meet Biomedical Imaging**, *Modelling the progression of neurological diseases*, Università La Sapienza, Roma.
- Jan 22, 2016 **Vision and Imaging Science Group, Centre for Medical Image Computing (CMIC) – Seminar programme**, *An inverse problem approach to compartmental analysis in Positron Emission Tomography*, UCL, London.
- Aug 12, 2015 **2015 LIDAR atmosphere data applications academic discussion**, *Retrieval of optical coefficients of the atmosphere by inversion of LIDAR data*, Beihang University, Beijing.

Talks on Conferences

- Jul 3, 2018 **2018 Simai Conference**, *Data-driven profiles of neurodegeneration across multiple subject groups*, Università La Sapienza, Roma.
- Jun 6, 2018 **2018 SIAM Conference on Imaging Science**, *Predicting brain atrophy progression from the healthy brain connectome*, Università di Bologna, Bologna.

work: room 207, second floor, Fermat Building – INRIA Sophia Antipolis

☎ (0039) 3387745086 • ✉ sara.garbarino@inria.fr

- Dec 9, 2015 **2015 Inverse Days**, *An inverse problem approach to compartmental analysis in Positron Emission Tomography*, Lappeenranta Technical University, Lappeenranta.
- Aug 10, 2015 **2015 ICIAM International Congress on Industrial and Applied Mathematics**, *Image reconstruction and interpretation in Positron Emission Tomography for small animals*, Beijing.
- May 13, 2014 **2014 SIAM Conference on Imaging Science**, *Quantification of Glucose Metabolism with Nuclear Medicine PET data*, Hong Kong.
- Apr 5, 2013 **CIMAB GASVA SIMAI: Workshop on Theoretical Approaches and Related Mathematical Methods in Biology, Medicine and Environment**, *A Computational Approach to Compartmental Analysis of Nuclear Medicine data based on Maximum Likelihood: application to renal physiology*, University of Milan, Milan.

Participation in meeting/workshop/schools

- Nov 7–9, 2018 **SophI.A. Summit, Springboard for Artificial Intelligence**, *Sophia Antipolis*.
- Jun 14–15, 2018 **2nd C@UCA meeting**, *Frejus*.
- Apr 4–6, 2018 **STATLEARN2018**, *Nice*.
- Sep 28–30, 2015 **1st Applied Mathematics Symposium Münster: Variational Methods for Dynamic Inverse Problems and Imaging**, *Münster*.
- Jun 3–5, 2015 **Calcolo scientifico e modelli matematici alla ricerca delle cose nascoste attraverso le cose manifeste**, *Genoa*.
- Jun 27–28, 2013 **TECNOBIONET Conference: themes and problems in stem cells and imaging tools and development**, *Genoa*.
- Jun 11–14, 2013 **MPF 2013: Modelling of Physiological Flows**, *Cagliari*.
- Mar 11–13, 2013 **Application course in PMOD software**, *Zürich*.
- Jun 25–29, 2012 **Simai Conference 2012**, *Turin*.

Poster

- July 24, 2018 **Sara Garbarino, Marco Lorenzi, Neil Oxtoby, Eline Vinke, Razvan Marinescu, Arman Eshaghi, Olga Ciccarelli, Frederik Barkhof, Meike Vernooij, and Daniel Alexander, for the Alzheimer's Disease Neuroimaging Initiative, AAIC 2018**, Chicago.
- June 19, 2018 **Sara Garbarino, Marco Lorenzi**, *2nd C@UCA meeting, Frejus*.
- Feb 19, 2018 **Neil P Oxtoby, Sara Garbarino, Nicholas Firth, Jason Warren, Jonathan M Schott, and Daniel C Alexander, for the Alzheimer's Disease Neuroimaging Initiative, POND2018 - 2nd International Workshop on Progression of Neurodegenerative Diseases**, Campus Biotech, Geneva.

work: room 207, second floor, Fermat Building – INRIA Sophia Antipolis

- Jul 18–21, 2017 **R. Marinescu, S. Primativo, A. Young, N. Oxtoby, N. Firth, A. Eshaghi, S. Garbarino, M. Modat, J. Cardoso, K. Yong, N. Fox, M. Lehmann, T. Shakespeare, S. Crutch, D. Alexander**, *Data-driven Model Predicts Distinct Atrophy Patterns for Three Different Cognitive Subgroups*, AAIC.
- Oct 18–22, 2014 **S. Garbarino, G. Bottoni, V. Vivaldi, A. Buschiazzi, F. Delbary, I. Calamia, G. Caviglia, M. Massollo, G. Sambuceti, C. Marini and M. Piana**, *Effects of Metformin and dietary Intervention on FDG Physiology in Mouse Liver: an Enhanced Compartmental Analysis*, Annual Congress of the European association of Nuclear Medicine, Göttingen.

Research visits

- Jun 26 – Jul 7, 2017 **Erasmus Medical Centre, Rotterdam, The Netherlands**, Reference: Prof. Meike Vernooij.

Supervision

- 2017 **MSc Thesis in Machine Learning at University College London**, Mr. Ban Chao.
- 2016 **BSc Thesis in Medical Physics at University College London**, Mr. Ashkan Pakzad.
- 2016 **MSc Thesis in Mathematics at University of Genoa**, Mrs. Giulia Denevi, (now PhD at Istituto Italiano di Tecnologia IIT, Genoa).
- 2016 **MSc Thesis in Mathematics at University of Genoa**, Mr. Andrea Raffo, (now PhD at Oslo University, Norway).
- 2015 **MSc Thesis in Mathematics at University of Genoa**, Mrs. Mara Scussolini, (now PhD at University of Genoa).
- 2014 **BSc Thesis in Mathematics at University of Genoa**, Mr. Giovanni Chiappori.

Teaching

- 2015/6 **Numerical Analysis**, Department of Computer Science, Università degli Studi di Genova, lab exercises.
- 2014/5 **Mathematics in Medicine**, Department of Mathematics, Università degli Studi di Genova, lectures and lab exercises.
- 2013/4 **Mathematical Analysis and Geometry**, Department of Mechanical Engineering, Università degli Studi di Genova, class exercises.
- 2012/3 **Mathematical Analysis and Geometry**, Department of Mechanical Engineering, Università degli Studi di Genova, tutoring first and second year students.

- 2011/2 **Fourier Analysis**, *Department of Mathematics*, Università degli Studi di Genova, lab exercises.
- 2011/2 **Mathematical Analysis and Geometry**, *Department of Mechanical Engineering*, Università degli Studi di Genova, tutoring first and second year students.
- 2009/10 **Mathematics**, *Department of Biology*, Università degli Studi di Genova, tutoring first year students.

Revision

- 2014 – to **Revisor**, for *Inverse Problems*, *Inverse Inverse Problems in Science and Engineering*,
 date *Journal of Chemical Information and Modeling*, *Scientific Reports*, *International Journal for Numerical Methods in Biomedical Engineering*.

Computer skills

- Basic C#, JAVA
- Intermediate C/C++, HTML
- Advanced MATLAB, PYTHON L^AT_EX, GNU/Linux

Languages

- Italian Mother–tongue
- English Professional
- French Basic
